RE: Consent Order No. 19-078-CAP

Dear Mr. Cobern:

Please find enclosed ADEM Consent Order No. 19-078-CAP which requires Alabama Pigments Company, LLC, to take certain actions in regard to alleged violations of the Alabama Air Pollution Control Act. This Order has been issued with the consent of Alabama Pigments Company, LLC, and the Department. Please refer to Order Item A that requires a submittal of a monetary penalty. This penalty should be received by the Department no later than forty-five (45) days from the date of this letter.

If you have any questions concerning this matter, please contact Shane Jordan at (334) 274-4228 in Montgomery.

Sincerely,

A handwritten signature in black ink, appearing to be "RWG", written over a circular stamp.

Ronald W. Gore, Chief
Air Division

ALABAMA DEPARTMENT OF
ENVIRONMENTAL MANAGEMENT

IN THE MATTER OF:)

Alabama Pigments Company, LLC)
McCalla, Bibb County, Alabama)
ADEM Facility ID Nos. 401-0001)
_____)

CONSENT ORDER
No. 19- 078 -CAP

PREAMBLE

This Special Order by Consent is made and entered into by the Alabama Department of Environmental Management (hereinafter, “the Department” or “ADEM”) and Alabama Pigments Company, LLC, (hereinafter, “APC” or Permittee) and pursuant to the provisions of the Alabama Environmental Management Act, Ala. Code §§ 22-22A-1 through 22-22A-17, as amended, and the Alabama Air Pollution Control Act, Ala. Code §§22-28-1 through 22-28-23, as amended, and the regulations promulgated pursuant thereto.

STIPULATIONS

1. APC owns and operates a hematite, magnetite, and lime processing facility (hereinafter, “APC” or “the Permittee”) located at 346 Rickey Road, McCalla, Bibb County, Alabama. The magnetite plant is operated under the authority of ADEM Air Permit No. 401-0001-X007 (hereinafter, the “magnetite permit”), issued on March 18, 2009. This Permit authorizes the operation of a 60 TPH magnetite/basic slag drying, screening, conveying, and bagging circuit with baghouse and storage silos to produce magnetite, subject to certain limitations and conditions.

2. The Department is a duly constituted department of the State of Alabama pursuant to Ala. Code §§22-22A-1 through 22-22A-17, as amended.

3. Pursuant to Ala. Code §22-22A-4(n), as amended, the Department is the state air

pollution control agency for the purposes of the federal Clean Air Act, 42 U.S.C. 7401 through 7671q, as amended. In addition, the Department is authorized to administer and enforce the provisions of the Alabama Air Pollution Control Act, Ala. Code §§22-28-1 through 22-28-23, as amended.

4. Proviso No. 16 of the magnetite permit states, in part, that “Dust emissions shall not be allowed to escape from enclosures or through seals due to holes or cracks in the enclosure...”

DEPARTMENT'S CONTENTIONS

5. On May 17, 2018, ADEM conducted an announced inspection of the magnetite plant and noted the following:

a) Emissions were escaping capture from the discharge end of the dryer and holes in the ductwork of the plant.

6. On May 29, 2018, the Department issued a Warning Letter (WL) to APC for emissions escaping capture from the magnetite plant, in breach of the plant's permit.

7. On June 14, 2018, the Department received a written response from APC stating the following:

a) The emissions escaping capture were from a seal on the drum and leaks on the ductwork were from normal production process. APC indicated that a seal would be replaced on the drum and new ductwork would be installed.

8. On January 16, 2019, ADEM conducted an unannounced inspection of the magnetite plant and noted the following:

a) Emissions were escaping capture from holes in the ductwork of the plant.

9. On January 24, 2019, the Department issued a Notice of Violation (NOV) to APC for emissions escaping capture from holes in the ductwork of the magnetite plant.

10. On February 20, 2019, the Department received a written response from APC stating the following:

- a) APC found it difficult to schedule the replacing of the ductwork.
- b) Replacing the ductwork was challenging due to the construction.
- c) APC had to engineer a suitable alternative to the existing ductwork.

11. Pursuant to Ala. Code §22-22A-5(18)c., as amended, in determining the amount of any penalty, the Department must give consideration to the seriousness of the violation, including any irreparable harm to the environment and any threat to the health or safety of the public; the standard of care manifested by such person; the economic benefit which delayed compliance may confer upon such person; the nature, extent and degree of success of such person's efforts to minimize or mitigate the effects of such violation upon the environment; such person's history of previous violations; and the ability of such person to pay such penalty. In arriving at this civil penalty, the Department has considered the following:

A. SERIOUSNESS OF THE VIOLATION: The Department considers these violations to be serious. The Department is not aware of any evidence of irreparable harm to human health or the environment due to these violations.

B. THE STANDARD OF CARE: By not maintaining and operating the magnetite plant in such a manner as to comply with the Permits, the Permittee did not exhibit the requisite standard of care.

C. ECONOMIC BENEFIT WHICH DELAYED COMPLIANCE MAY HAVE CONFERRED: The Department is not aware of any significant economic benefit as a result of the violations referenced herein.

D. EFFORTS TO MINIMIZE OR MITIGATE THE EFFECTS OF THE VIOLATION UPON THE ENVIRONMENT: The Department is not aware of any efforts made by the Permittee to minimize or mitigate the effects upon the environment due to its non-compliance.

E. HISTORY OF PREVIOUS VIOLATIONS: APC does not have a history of violations with the Department.

F. THE ABILITY TO PAY: The Permittee has not alleged an inability to pay the civil penalty.

G. OTHER FACTORS: It should be noted that this Special Order by Consent is a negotiated settlement and, therefore, the Department has compromised the amount of the penalty it believes is warranted in this matter in the spirit of cooperation and the desire to resolve this matter amicably, without incurring the unwarranted expense of litigation.

12. The Department has carefully considered the six statutory penalty factors enumerated in Ala. Code § 22-22A-5(18)c, as amended, as well as the need for timely and effective enforcement and, based upon the foregoing and attached contentions, has concluded that the civil penalty herein is appropriate (*See* "Attachment A", which is hereby made a part of the Department's Contentions).

13. The Department neither admits nor denies the Permittee's contentions, which are set forth below. The Department has agreed to the terms of this Consent Order in an effort to resolve the alleged violations cited herein without the unwarranted expenditure of State resources

in further prosecuting the above violations. The Department has determined that the terms contemplated in this Consent Order are in the best interests of the citizens of Alabama.

PERMITTEE'S CONTENTIONS

14. The Permittee neither admit nor deny the Department's Contentions. The Permittee consents to abide by the terms of this Consent Order and to pay the civil penalty assessed herein.

ORDER

THEREFORE, the Permittee, along with the Department, desires to resolve and settle the compliance issues cited above. The Department has carefully considered the facts available to it and has considered the six penalty factors enumerated in Ala. Code §22-22A-5(18)c., as amended, as well as the need for timely and effective enforcement, and the Department believes that the following conditions are appropriate to address the violations alleged herein. Therefore, the Department and the Permittee agree to enter into this ORDER with the following terms and conditions:

A. The Permittee agrees to pay to the Department a civil penalty in the amount of \$6,000.00 in settlement of the violations alleged herein within forty-five days from the effective date of this Consent Order. Failure to pay the civil penalty within forty-five days from the effective date may result in the Department's filing a civil action in the Circuit Court of Montgomery County to recover the civil penalty.

B. The Permittee agrees that all penalties due pursuant to this Consent Order shall be made payable to the Alabama Department of Environmental Management by certified or cashier's check and shall be remitted to:

Office of General Counsel
Alabama Department of Environmental Management
P.O. Box 301463
Montgomery, Alabama 36130-1463

C. The Permittee agrees to comply with the terms, limitations, and conditions of the Permits and NSPS Subpart LL every day hereafter.

D. The parties agree that this Consent Order shall apply to and be binding upon both parties, their directors, officers, and all persons or entities acting under or for them. Each signatory to this Consent Order certifies that he or she is fully authorized by the party he or she represents to enter into the terms and conditions of this Consent Order, to execute the Consent Order on behalf of the party represented, and to legally bind such party.

E. That, subject to the terms of these presents and subject to provisions otherwise provided by statute, this Consent Order is intended to operate as a full resolution of the violations which are cited in this Consent Order.

F. The Permittee agrees that they are not relieved from any liability if they fail to comply with any provision of this Consent Order.

G. For purposes of this Consent Order only, the Permittee agrees that the Department may properly bring an action to compel compliance with the terms and conditions contained herein in the Circuit Court of Montgomery County. The Permittee also agrees that in any action brought by the Department to compel compliance with the terms of this Agreement, the Permittee shall be limited to the defenses of *Force Majeure*, compliance with this Agreement and physical impossibility. A *Force Majeure* is defined as any event arising from causes that are not foreseeable and are beyond the reasonable control of the Permittee, including its contractors and consultants, which could not be overcome by due diligence (i.e., causes which could have been overcome or

avoided by the exercise of due diligence will not be considered to have been beyond the reasonable control of the Permittee) and which delays or prevents performance by a date required by the Consent Order. Events such as unanticipated or increased costs of performance, changed economic circumstances, normal precipitation events, or failure to obtain federal, state, or local permits shall not constitute *Force Majeure*. Any request for a modification of a deadline must be accompanied by the reasons (including documentation) for each extension and the proposed extension time. This information shall be submitted to the Department a minimum of ten working days prior to the original anticipated completion date. If the Department, after review of the extension request, finds the work was delayed because of conditions beyond the control and without the fault of the Permittee, the Department may extend the time as justified by the circumstances. The Department may also grant any other additional time extension as justified by the circumstances, but it is not obligated to do so.

H. The Department and the Permittee agree that the sole purpose of this Consent Order is to resolve and dispose of all allegations and contentions stated herein concerning the factual circumstances referenced herein. Should additional facts and circumstances be discovered in the future concerning the magnetite plant which would constitute possible violations not addressed in this Consent Order, then such future violations may be addressed in Orders as may be issued by the Director, litigation initiated by the Department, or such other enforcement action as may be appropriate, and the Permittee shall not object to such future orders, litigation or enforcement action based on the issuance of this Consent Order if future orders, litigation or other enforcement action address new matters not raised in this Consent Order.

I. The Department and the Permittee agree that this Consent Order shall be considered final and effective immediately upon signature of all parties. This Consent Order shall not be appealable, and the Permittee does hereby waive any hearing on the terms and conditions of same.

J. The Department and the Permittee agree that this Order shall not affect the Permittee's obligation to comply with any Federal, State, or local laws or regulations.

K. The Department and the Permittee agree that final approval and entry into this Order are subject to the requirements that the Department give notice of proposed Orders to the public, and that the public have at least thirty days within which to comment on the Order.

L. The Department and the Permittee agree that, should any provision of this Order be declared by a court of competent jurisdiction or the Environmental Management Commission to be inconsistent with Federal or State law and therefore unenforceable, the remaining provisions hereof shall remain in full force and effect.

M. The Department and the Permittee agree that any modifications of this Order must be agreed to in writing signed by all parties.

N. The Department and the Permittee agree that, except as otherwise set forth herein, this Order is not and shall not be interpreted to be a permit or modification of an existing permit under Federal, State or local law, and shall not be construed to waive or relieve the Permittee of its obligations to comply in the future with any permit.
