## Reading Comprehension

Read the following passage then answer the questions

It is bad to have food stuck between your teeth for long time as food attracts germs which produce acid, and acid hurts your teeth. Flossing helps to remove this food. The explains why flossing helps us **long** your mouth healthy, but some doctors say that flossing can be a good for your heart.

It may seem strange that something your do for your teeth can have an effect on your heart. Doctors have some ideas about how flossing works to keep your heart healthy.

One idea is that the germs that hurt your teeth can travel into blood and attack your heart. Another idea is that when there are too many germs in your mouth, the body tries to fight **them**, and the way the body fights these germs may weaken the heart.

Not every doctor agrees about these ideas. Some doctors think that the link between good flossing habits and good hearts health is only a coincidence. A coincidence is the occurrence of two of more events in one time **apparently** By mere chance. For example, every time I wash my car, it rains. This doesn't mean that when I wash my car, it has likewise, some doctors think that people who have bad flossing may have heart problems, and people who have good flossing may have healthy hearts. The theory that flossing yours teeth helps to keep your heart healthy might not be true. But every doctor agree that flossing is a great way to keep your teeth healthy. So even if flossing doesn't help your heart, it is sure to your teeth.
